TEMPORARY WATER SHUT OFF REQUEST

Whether you leave the water service on or have it shut off at the curb, please remember that you are responsible for ensuring all systems in your home are adequately protected from damage that could occur during your extended absence. If you are not sure how to properly secure your plumbing, water heater, water softener, or any other appliance, please seek the advice of a professional.

No water service will be available, and no monthly billings or meter readings will be calculated during the shut off, except you will receive a bill for the water service received in the month before you leave. Our billings are for the previous month's use and service.
